The Opportunity

Ethiopia is experiencing a digital entertainment revolution. With internet penetration growing at over 15% annually and a young, mobile-first population of 120+ million, the demand for premium television content has never been higher.

Yet most Ethiopians are limited to free-to-air EthioSat channels. They have no access to Premier League football in HD, Hollywood blockbusters, international news, or the latest TV series -- unless they pay \$15+/month for unreliable IPTV services.

Shared Netflix is just the start. We offer the NEXT LEVEL of entertainment.

DL Mag IPTV is not a shared account. It is a FULL, standalone television service with 3,200+ live channels, 2,700+ movies, and 580+ TV series -- delivered in HD, FHD, and 4K quality. Every subscriber gets their own personal account.

Why Ethiopia? Why Now?

The Ethiopian IPTV market is projected to grow at 12.8% CAGR through 2032. Your platform already has the payment infrastructure and the customer base. Adding IPTV transforms your business from a subscription reseller into a service into a full entertainment destination.

Ethiopian internet users (2026)	45+ million
Mobile money users (Telebirr)	40+ million
IPTV market growth rate	12.8% CAGR
Existing IPTV competition price	\$15-25/month
Shared Netflix (market price)	~700 ETB/month (shared account)
Our wholesale price (Basic)	800 ETB/month (OWN account)

Movies	Netflix catalog	2,700+ titles (Hollywood + more)
Monthly (retail)	~700 ETB shared	1,800 ETB personal

How the Partnership Works

We handle the technology. You handle the customers. Simple, clean, profitable.

1. You sell subscriptions

Add IPTV plans to your existing platform alongside Netflix, Spotify, and Disney+. Use your existing payment flow (Telebirr / CBE). You set the retail price -- keep the margin.

2. We provision accounts instantly

When a customer purchases, you notify us. We create their personal IPTV account within minutes. They receive a username, password, and simple setup instructions.

3. Customer watches anywhere

Works on Smart TVs, Android TV, Firestick, iPhone, Android, PC, and web browser. One account = up to 3 simultaneous streams.

4. We provide 24/7 support to YOU

Any technical issues? Our support channel handles it. You focus on sales and growth. We handle the backend.

Revenue Projection

Conservative estimate based on a typical subscription platform customer base:

Subscribers (Month 1)	50 customers (conservative)
Average wholesale cost	1,000 ETB/month
Average retail price	1,800 ETB/month
Margin per subscriber	800 ETB/month
Monthly revenue (50 subs)	90,000 ETB total 40,000 ETB profit
Year 1 projection (scaling)	500+ subscribers 400,000+ ETB monthly profit

Next Steps

We have everything ready for you to test -- today.

1. Test our service with a FREE demo account

We provide a fully loaded account with all channels and VOD. Test it on any device for 7 days. Experience the quality yourself before committing.

2. Review our channel list and pricing

Full channel catalog available upon request. Custom packages can be created for the Ethiopian market -- want more Arabic channels? More African content? We can add them.

3. Launch a pilot together

Start with 20-50 subscribers on your platform. Validate the market. We handle provisioning. You collect revenue. Scale from there.
